Description

We have to upgrade the python version for certbot to continue working.

Must be done before the current SSL certificate expires May 9th.

```
Subject: Cron <root@localhost> python -c 'import random; import time; time.sleep(random.random
() * 3600)' && /usr/local/bin/certbot-auto renew
Date: Fri, 25 Dec 2020 00:01:33 -0500 (EST)
From: Cron Daemon <root@hostings.com>
To: root@hostings.com
```

Your system is not supported by certbot-auto anymore.
Certbot will no longer receive updates.

Please visit <https://certbot.eff.org/> to check for other alternatives.

```
/opt/eff.org/certbot/venv/local/lib/python2.7/site-packages/cryptography/hazmat/primitives/constan
t_time.py:26: CryptographyDeprecationWarning: Support for your Python version is deprecated. The n
ext version of cryptography will remove support. Please upgrade to a release (2.7.7+) that support
s hmac.compare_digest as soon as possible.
```

```
utils.PersistentlyDeprecated2018,
```

```
Saving debug log to /var/log/letsencrypt/letsencrypt.log
```

```
-----
Processing /etc/letsencrypt/renewal/hostings.com.conf
-----
```

```
Cert not yet due for renewal
-----
```

```
The following certs are not due for renewal yet:
```

```
/etc/letsencrypt/live/hostings.com/fullchain.pem expires on 2021-03-15 (skipped)
```

```
No renewals were attempted.

- Status changed from Assigned to Submitted

I think it happened on the old hostings.com and we already setup the working cron for it. and if you not see any issue, then we can delete the old linode server.
